

# SIMPLESMILE®

## Product Data Sheet

### Teeth Whitening Refill

Art no: SS120100

#### Whiter teeth in 30 minutes

The SimpleSmile® Refill contains the following items:

- A 10 ml tube with our 32% Sodium Bicarbonate gel
- Instruction sheet
- Shade guide

#### Active ingredients / How it works

There are several active ingredients that all work together. One of them is Sodium Bicarbonate. For the gel to work effectively, it must first penetrate the teeth. This is crucial for a good result and SimpleSmile®'s unique gel is quickly absorbed by the enamel and dentin. Our thermoform mouth trays are individually shaped through heating and can be reused minimum 5-6 complete treatments. Bleaching gel appears here with an enzyme found naturally in the saliva that releases oxygen, which bleaches both enamel and dentin. After a Start Kit has been used, a refill gel can be used to repeat procedure when necessary.

#### 3+ Unique Competitive Advantages

- Good Gel formulation with proven clinical results, supported by SimpleSmile® intelligent App for best instructions. 2-4 shades whiter teeth
- Contains Aloe Vera. Gentle to gum and teeth, no side effects.
- Contains 0,05 Sodium Fluoride
